

## Caleb & Baby Ginger Plain Pullovers

Hand knitting pattern for lovers of Sasha dolls, free of charge.

By Susanna Lewis, ©December, 2018

This is Caleb 4-309 from the English production, manufactured from 1972 to the end of the production in 1986. Over the years his skin color and outfit were modified, but he always wore a light yellow machine knitted pullover made from acrylic yarn. In the first few years his pullover was made in plain jersey fabric (stockinette stitch) as pictured, with 1x1 (knit 1, purl 1) ribbed borders and mock turtleneck collar. Later, the fabric was changed to fisherman rib, first with turtleneck collar, and finally with return to the mock turtleneck collar. But Caleb's first pullover is the focus of this knitting pattern.

Two more English Sashas also wore this pullover. First was Sweater 112, the only English Sasha with a unique bubble haircut, manufactured from 1982-1984. Second was baby Ginger 515S, the only English baby with red hair and blue eyes, manufactured from 1985-1986. Both dolls wore pullovers styled the same as Caleb's first pullover, Sweater's in beige acrylic yarn, and Ginger's in creamy white acrylic yarn. Sweater's outfit was also made as a dress set from 1982-1986, but Caleb's and Ginger's outfits were never sold as dress sets.

The pattern for Caleb's pullover in fisherman rib can be found in **Gregor's Pullover & Wintersport's Cap**.

These pages are patterns to make copies of Caleb's and Ginger's pullovers, using yarn, needles and gauges appropriate for hand knitting. They should fit both earlier, smaller dolls as well as later, larger dolls. The patterns given here are not reproductions of the original garments. They are copies with changes as needed for hand knitters, and they remain faithful to the original styling and construction of the garments.

Both sizes of this plain pullover are made the same way and are identical in styling and construction. All the pieces are made flat, on two needles. The main fabric is stockinette stitch, which makes it very easy to decorate the fabric by adding

your choice of a texture or color pattern. It has set-in sleeves which requires very simple shaping. It also has a mock turtleneck collar, meaning a turtleneck rib that is folded to inside and hemmed, and there is no neck shaping. In my opinion, this is an ideal garment for the less experienced knitter, or for an experienced knitter who wants a simple garment to apply one's own patterning ideas.

**Markers:** Small safety pins to mark the start of each garment section. In each section, after the first two rows are made, mark a stitch on the first of the two rows (always on the R side) with a pin so you can easily count the rows you have made in each section.

**Gauge:** In stockinette stitch with 3.00mm ndls, 8 sts and 10 rows = 1 inch (2.5 cm). Wash and dry your swatch before measuring for gauge.

**Cast on method:** Use a cast on that makes a row of knitted stitches, such as “Thumb,” “Two-strand,” or “Long Tail,” leaving an unused length of about 12 inches for sewing up during finishing.
